

Stop Overpaying for Student Technology While Eliminating Operational Risk

Current educational procurement often accepts inflated margins and hardware downtime as the "cost of doing business." PCL offers a strategic pivot: Enterprise-level hardware lifecycles that preserve capital while ensuring classroom continuity.

ESTABLISHED SCALE & QUALITY

- **35-Year Legacy:** Managing hardware for regulated industries since 1991.
- **Massive Infrastructure:** 55,000 sq. ft. facility optimized for enterprise-scale EDU rollouts.
- **32-Point Testing:** A technical stress test, not a checklist. OEM standard compliance guaranteed.
- **Security:** NAID Certified data sanitization and serialized Certificates of Destruction.

The Bottom Line

Financial Efficiency: Stretch your hardware budget further without sacrificing specs. Our certified refurbished hardware provides enterprise-level performance at a fraction of the cost of new equipment.

Operational Stability: Refurbished doesn't mean risky. Every unit is processed by A+ Certified Technicians. Our refurbished defective rate is on par with many new-equipment manufacturers.

Logistical Speed: We stock deep so you can scale fast. From single replacements to fleet rollouts, we offer flexible shipping schedules tailored to your deployment timeline.

Risk Mitigation: Full Chain of Custody tracking from your door to ours. We provide the legal documentation required to meet NAID, NIST, HIPAA, and FERPA standards.

Custom EDU Solutions

- **Advanced Replacements:** Zero Downtime support. We dispatch pre-imaged replacements immediately when a failure is reported.
- **Plug & Play Kitting:** Units arrive custom imaged, requiring zero initial IT labor for set up
- **One Stop Ecosystem:** Single source procurement for workstations, networking, telecom, and print

Impact Metrics

30 - 70% Savings

Immediate reduction in hardware budget compared to MSRP.

< 2% Defective Rate

Reliability that is on par with many new-equipment standards.

3-Year Warranty

Enterprise level protection on all certified units.
