

Stop Overpaying and Waiting for Business Technology

Access reliable, business-class hardware at 30–70% less than new, featuring fully tested and warranty-backed units that arrive ready for immediate deployment to keep your business moving efficiently.

ESTABLISHED SCALE & QUALITY

- **35-Year Legacy:** Managing hardware for regulated industries since 1991.
- **Massive Infrastructure:** 55,000 sq. ft. facility optimized for enterprise-scale EDU rollouts.
- **32-Point Testing:** A technical stress test, not a checklist. 100% OEM spec compliance guaranteed.
- **Security:** NAID-standard data sanitization and serialized Certificates of Destruction.

The Bottom Line

Same performance: We provide enterprise-grade units at 30–70% off MSRP, allowing you to reallocate that capital back into your core operations.

No More Waiting: Don't let manufacturer backorders or supply chain delays dictate your project timelines. With 55,000 sq. ft. of ready-to-ship inventory, we stage and ship your gear so it arrives exactly when your team is ready.

Tested, reliable, ready to deploy: Eliminate the frustration of "out-of-the-box" failures and complex technical setups. Every device passes a 32-point Physical and functional inspection and arrives pre-configured, ensuring your team stays productive from day one.

Think Beyond One Purchase: Transition from treating hardware as a disposable expense to a long-term lifecycle strategy. We help you standardize your fleet and manage retired assets, turning your technology into a predictable, scalable business asset.

Custom MSP Solutions

- **Advanced Replacements:** Zero Downtime support. We dispatch pre-imaged replacements immediately when a failure is reported.
- **Plug & Play Kitting:** Units arrive custom imaged, requiring zero initial IT labor for set up
- **One Stop Ecosystem:** Single source procurement for workstations, networking, telecom, and print

Impact Metrics

30 - 70% Savings

Immediate reduction in hardware budget compared to MSRP.

< 2% Defective Rate

Reliability that is on par with many new-equipment standards.

1-Year Warranty

Enterprise level protection on all certified units.
